

CarbonCore AI Emission Report

PT HERBATECH INNOPHARMA INDUSTRY

Report Type: Monthly | Period: 2025-02-01 to 2025-02-28

Total Energy	Estimated CO2e	Active Alerts	Active Recs	Completed Recs
2,260.20 kWh	1,921.17 kg	8	10	3

Executive Summary

During 2025-02-01 to 2025-02-28, total energy consumption reached 2,260.20 kWh with estimated emissions of 1,921.17 kg CO2e.

Key Findings

- 20 machine usage records were included.
- 8 active alerts were identified.
- 12 active recommendations are available.

Top Machine Usage

Machine	Location	Qty	kW	Hours	kWh
Genset	Production	1	80.0000	5.0000	400.0000
Genset	Production	1	80.0000	5.0000	400.0000
Mesin Shrink Tunnel	Production	1	20.0000	14.0000	280.0000
Mesin Shrink Tunnel	Production	1	20.0000	14.0000	280.0000
Mesin Kompresor	Production	1	15.0000	14.0000	210.0000
Mesin Kompresor	Production	1	15.0000	14.0000	210.0000
Mesin Mixing 250 kg Ribbon	Production	1	10.0000	14.0000	140.0000
Mesin Mixing 250 kg Ribbon	Production	1	10.0000	14.0000	140.0000
Mesin Mixing Homogenizer	Production	1	4.0000	14.0000	56.0000
Mesin Mixing Homogenizer	Production	1	4.0000	14.0000	56.0000

Active Alerts

Severity	Type	Message	Action
high	High Energy Usage	Mesin Shrink Tunnel has high energy consumption for this period.	Review operating schedule and reduce idle runtime.
warning	Missing Data	AC has power data but zero usage hours.	Confirm whether the machine was idle or usage data is incomplete.
warning	Missing Data	Heat Gun has power data but zero usage hours.	Confirm whether the machine was idle or usage data is incomplete.
high	High Energy Usage	Genset has high energy consumption for this period.	Review operating schedule and reduce idle runtime.
high	High Energy Usage	Mesin Shrink Tunnel has high energy consumption for this period.	Review operating schedule and reduce idle runtime.
warning	Missing Data	AC has power data but zero usage hours.	Confirm whether the machine was idle or usage data is incomplete.
warning	Missing Data	Heat Gun has power data but zero usage hours.	Confirm whether the machine was idle or usage data is incomplete.
high	High Energy Usage	Genset has high energy consumption for this period.	Review operating schedule and reduce idle runtime.

Active Recommendations

Priority	Title	Machine
high	Reduce low-load genset operation	Genset
high	Optimize high-energy machine schedule	Mesin Shrink Tunnel
medium	Inspect compressor air leaks	Mesin Kompresor
medium	Improve machine usage tracking	Mesin Mixing 250 kg Ribbon
medium	Improve machine usage tracking	Mesin Mixing Homogenizer
medium	Improve machine usage tracking	Mesin Conveyor
medium	Improve machine usage tracking	Mesin Coding
medium	Improve machine usage tracking	Mesin Band Sealer
low	Validate zero usage record	AC
high	Reduce low-load genset operation	Genset

Completed Recommendations

Priority	Title	Machine	Status
low	Validate zero usage record	Heat Gun	completed
medium	Improve machine usage tracking	Mesin Mixing 250 kg Ribbon	completed
medium	Improve machine usage tracking	Mesin Mixing Homogenizer	completed
